

## AmpMiner® EMI Recovery

Dimensions: (in)

| Parameter                 | Details  |
|---------------------------|--|
| Voltage Range / Frequency | 208/480VAC, 60Hz   |
| Phase Topology            | 3-phase 4-wire+PE systems only   |
| Current Rating            | Compatible with panels rated up to 400A  |
| Attenuation Ampacity      | 22A of EMI mitigation on dedicated neutral and ground circuits   |
| Certifications            | CSA & UL 1283 certified (No. 80215983)   |
| Country of Manufacture    | Made in the USA  |
| Warranty                  | 30-year break-and-replace warranty, supported through Efficiency Service Agreements (ESA)  |
| Secure Communications     | Military-grade encryption ensures secure, one-directional communication via Wi-Fi. This one-way workflow delivers real-time EDGE® insights to the customer dashboard and preventing any reverse influence on the customer's systems. |
